

What makes ACTA system the perfect time attendance solution?

Universality

- All types of **work shifts**: fixed, flexible, cyclic (turns), night shifts, weekend shifts... all possible cycles and shifts durations
- All types of standard **absences** + user specific absences defined by adjustable **rules** and by public and personal holidays calendars.
- Powerfull and adjustable system for **extratime redistribution**.

Completeness

- **Clock machines**: RFID, IP, PoE, online/standalone, indoors/outdoors, barriers/ramps/electric locks

System works equally well, regardless if ACTA or other compatible clock machines are used.

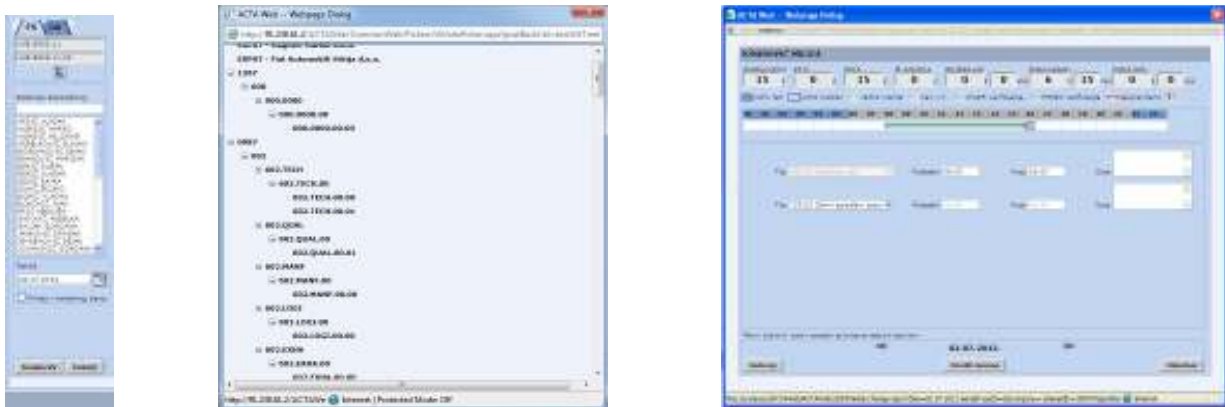

- Modules for **visitor management**, **canteen management** and **guard tour control**

Completely functional modules offer integrated and complete SW/HW solutions.

Scalability and utilization

- Simple and comprehensive solution for companies **from 10 to 10000+ employees**.
- Defining **several parallel hierarchic structures**, according to companies needs.
- **Adjustable distribution of administrative functions**, from self-service to centralized access
- **Self-service** allows independent data administration, with necessary verification
- **Price** is based on number of employees, number of clock machines and required functionality.

Reliability and stability

- Multi-annual reliable work with more than 80 companies of all sizes and types with minimal necessary support.
